WHOLESALE MARKET PRICES

AT

ATLANTA

SUMMARY FOR 1978

This is the eleventh issue of an annual summary covering wholesale prices on the Atlanta Produce Market. The contents of this summary are compiled from daily market reports issued by the Federal-State Market News Service at Forest Park, Georgia. Prices shown are mostly for commodities which are regularly offered for sale throughout the year, or offered in sufficient volume to be of importance on the market during most of the calendar year. Where definite grades are not indicated, quotations cover stock of generally good merchantable quality and condition. Price ranges cover sales made by original receivers in less than carlot quantities. Exceptional, fair and ordinary quality quotations are omitted, unless so indicated. Prices listed for Wednesday sales of each week. In a few instances, where there are no offerings on Wednesday, quotations are shown for the nearest day of the same week. Owing to the wide range in prices for various grades of quality, condition and sizes for some commodities throughout the calendar year, an attempt has been made to show only the price range for the greatest volume of certain desirable sizes and the most common or popular varieties and grades. Other varieties, grades and sizes have been omitted. An average weighted price for each commodity tabulated in this summary, is not available because of the wide variance of quality, sizes, varieties, containers, etc.

These price data, when combined with a report of Atlanta unloads and truck receipts for 1978, would give a fairly good picture of price and supply conditions on the Atlanta market during the year. The Atlanta unloads for 1978 are contained in the USDA bulletin on Fresh Fruit and Vegetable Unloads AMS-6(1978) published by the United States Department of Agriculture, Agricultural Marketing Service, Fruit & Vegetable Div., Market News Branch, Washington, D. C. 20250.
