This summary reports domestic rail, boat and available truck and air shipments of fresh fruits and vegetables by commodities, origins and months. Imports taken from official records of the U. S. Department of Commerce are also reported.

Commodities reported are listed in Contents. Mixed cars containing 90 percent or more of one commodity were reported as that commodity. When no single commodity comprised as much as 90 percent, cars were classified in their proper mixed category -- that is, mixed citrus fruit, mixed vegetables, etc.

Shipments shown in detailed tables are rail shipments, including rail-truck(piggyback) moving on initial line-haul waybills. Rail-truck is identified by the symbol R/T adjacent to State of origin. "Boat" adjacent to State of origin represents boat shipments of domestic production which moved truck-to-boat, except for Puerto Rico. Only Puerto Rico shipments entering the United States are reported. "Air" identifies air movements. Domestic truck shipments and imports are incomplete, but identified and reported where movement data were available.

The program of tabulating outbound truck passings through California border stations was discontinued April 16, 1967. An expanded program of reporting California truck shipments at shipping points was inaugurated as early as possible after the discontinuance of the outbound truck passings program. California truck data are not available for all months of 1967. The movement reported in this summary is from the best available sources. Truck reported for Arizona and Florida is interstate movement only.

The following abbreviations were used to identify California rail shipments by districts: ND - Northern District; CD - Central District; SD - Southern Districts and IV - Imperial Valley.

Factors used to convert air, truck and boat to rail carlot equivalents are outlined on page 3.

Cooperation of railroad, express, air and steamship agents, and officials of State departments of agriculture and farmers' markets, as well as members of the produce industry, is gratefully acknowledged.
