NEW YORK CITY HUNTS POINT WHOLESALE MARKET PRICES

FRESH FRUITS AND VEGETABLES

MARKET NEWS SERVICE

1969

The prices tabulated in this summary were taken from the New York City Hunts Point Wholesale Market Report that is published daily, Monday through Friday, throughout the year, by the New York City Hunts Point office of the Fruit and Vegetable Market News Service, Consumer and Marketing Service, U.S. Department of Agriculture.

Prices shown represent the general market prices of all major commodities and such minor commodities that are believed to be of interest to those concerned with the wholesale prices of fruits and vegetables in the New York City Metropolitan area. The most consistent areas of supply, the most popular containers, varieties, grades and sizes of generally good merchantable quality and condition are shown for each commodity. Since this is the first price summary published by this office, no attempt was made to compare with prices or other data of past years. Whenever possible the Thursday market price range for each week has been used.

Additional copies of the 1969 New York City Hunts Point Wholesale Market Price Summary may be obtained by directing your request to:
