PRICE SUMMARY/1965-1974 CROP

PREFACE

The following prices have been averaged from the Peanut Market News Reports issued weekly by the Agricultural Marketing Service of the U.S. Department of Agriculture, and are based on prices reported by shellers, cleaners and brokers. Average prices as shown are simple averages between high and low prices or "mostly" prices as reported each week and are not weighted according to volume of sales.

We wish to express our appreciation to the shellers, brokers and cleaners whose cooperation made this report possible.
