The price Summary for 1970 was compiled by using the Pittsburgh Daily Wholesale Market Reports issued by the Federal-State Market News Service.

The quotations shown reflect wholesale prices charged by primary receivers for varieties, grades, and sizes offering the most continuous run of sales.

Prices are for stock of good merchantable quality and condition unless otherwise stated by Federal or State grades. High prices for fine quality stock and prices for inferior quality and condition were disregarded.

The prices used were generally taken from Thursday's daily report; in cases such as holidays or there not being offerings, the quotation from the nearest day was used.

For a better analysis, this report can be used in conjunction with the C&MS-3(1970) publication titled "Fresh Fruit & Vegetable Unloads in Eastern Cities" available from Washington, D. C.
