WHOLESALE MARKET PRICES AT SEATTLE-TACOMA

SUMMARY OF 1993

In compiling the following weekly Price Summary for 1993, the Daily Wholesale Market Reports, issued by the Federal-State Market News Service have been used. Quotations shown reflect sales by wholesalers in less than truck loads for commodities, packs, varieties, grades and sizes offering the most continuous run of sales. Prices are for stock of generally good quality and condition or by State or Federal Grade. Dates shown are week ending Saturday dates. Prices shown are the weekly range - using the "mostly" prices when applicable. Extreme high prices on fine quality stock and low prices on inferior quality and condition were disregarded.

This report includes the Seattle-Tacoma annual arrival summary for 1993. All figures on this report are in 1,000 CWT units (100,000 pounds per unit).

The wide variation in qualities, containers, producing districts and varieties make it impossible to compile weighted average price suitable for statistical use.

We wish to take this opportunity to thank those furnishing information this past year which made this report possible.

Additional summaries and back issue copies may be picked up at this office or mailed at a charge of \$10.00 per copy upon request from:
