## PREFACE

The National Fruit and Vegetable Truck Rate Report, prepared by the Fruit and Vegetable Market News Branch, AMS, USDA, is released every Wednesday.

Truck rates are collected every Tuesday from fruit and vegetable shippers and truck brokers by market news reporters located in every major shipping area of the country. Individual reports are then sent to Washington, D.C. where the National Fruit and Vegetable Truck Rate Report is compiled and released every Wednesday. Rates quoted represent rates that shippers or receivers pay, depending on basis of sale, per load, including truck brokers' fees, for shipments in truck load volume to a single destination. Extra charges for delivery to terminal markets, multi-pickup and multi-drop shipments are not included. Rates are based on the most usual loads in 45-48 foot, mostly 48 foot, trailers from the origin, or shipping area, to the destination, or receiving area. The seven cities of destination are Atlanta, Georgia; Chicago, Illinois; Dallas, Texas; Denver, Colorado; Los Angeles, California; New York, New York; and Montreal, Canada.

The National Truck Cost Report, prepared by the Transportation and Marketing Division, AMS, USDA, is released the last Wednesday of each month for that month. Cost information for fleet operators are based on 1989 annual reports to the Interstate Commerce Commission from 48 long distance haulers of perishable agricultural products and solid refrigerated products. The selected motor carriers usually maintained one home base terminal and hauled mostly refrigerated products.

Dissemination is by printed report mailed from the Market News offices in San Francisco, California, and New York, New York. It is released via satellite to all fruit and vegetable Market News offices throughout the country.

Appreciation is extended to the truck brokers and fruit and vegetable shippers and receivers, who co-operated with information needed for this report. We encourage suggestions and constructive criticism on how we may improve the report to better serve the industry.

The following market news offices can disseminate truck rate information for any area every Wednesday after 1:00 pm Eastern time. Users are encouraged to call the nearest office for information needed.
