

1998 Fruit and Vegetable Truck Rate Summary

Federal-State Market News Service

Market News Branch**

PREFACE

The National Fruit and Vegetable Truck Rate Report, prepared by the Fruit and Vegetable Market News Branch, AMS, USDA, is released every Wednesday.

Market news reporters covering every major shipping area of the country collect truck rates every Tuesday from fruit and vegetable shippers and truck brokers. Individual reports are then sent to Washington, DC where the National Fruit and Vegetable Truck Rate Report is compiled and released every Wednesday. Rates quoted represent rates that shippers or receivers pay, depending on the basis of sale, per load, including truck brokers' fees, for shipments in truckload volume to a single destination. Extra charges for delivery to terminal markets, multi-pickup and multi-drop shipments are not included. Rates are based on the most usual loads in 45-48 foot, mostly 48 foot, trailers from the origin, or shipping area, to the destination, or receiving area. The seven cities of destination are Atlanta, GA; Chicago, IL; Dallas, TX; Denver, CO; Los Angeles, CA; New York, NY; and Montreal, Canada.

The National Truck Cost Report is no longer being issued.

Dissemination is by printed report mailed from the Market News Office in Fresno, California. It is released electronically to all Fruit and Vegetable offices throughout the country, private dissemination services, and the Internet (www.ams.usda.gov/marketnews.hfm).

Appreciation is extended to the truck brokers and fruit and vegetable shippers and receivers who cooperated with information needed for this report. We encourage suggestions and constructive criticism on how we may improve the report to better serve the industry.

The following market news offices can disseminate truck rate information for any area every Wednesday after 12:00 noon Eastern Time. Users are encouraged to call the nearest office for information needed.
