JOINT COMMITTEE ON POLICY AND MANUSCRIPTS

FOR THE UNITED STATES DEPARTMENT OF AGRICULTURE
H. G. KNIGHT, CHAIRMAN
Chief, Bureau of Chemistry and Soils

C. L. SHEAR
Senior Pathologist in Charge, Mycology and Disease Survey

F. L. CAMPBELL
Associate Entomologist, Bureau of Entomology

FOR THE ASSOCIATION OF LAND-GRANT COLLEGES AND UNIVERSITIES
S. W. FLETCHER
Director of Research, Pennsylvania Agricultural Experiment Station

G. A. DEAN
Head, Department of Entomology, Kansas Agricultural Experiment Station

F. B. MORRISON
Head, Department of Animal Husbandry, New York (Cornell) Agricultural Experiment Station

EDITORIAL SUPERVISION

M. C. MERRILL
Chief of Publications, United States Department of Agriculture

All articles from State experiment stations must be approved by the director of the originating station. Station manuscripts and correspondence concerning them should be addressed to S. W. Fletcher, Director of Research, Pennsylvania Agricultural Experiment Station, State College, Pa.

Published on the 1st and 15th of each month. This volume will consist of 12 numbers and the Contents and Index.

Subscription price: Domestic, $4.00 a year (two volumes)
Single numbers 20 cents
Foreign, $5.00 a year (two volumes)
Single numbers, 25 cents

If separates are desired in quantity they should be ordered at the time the manuscript is sent to the printer, and they will be supplied practically at cost. Single copies of separates may be obtained free of charge from the Office of Information, United States Department of Agriculture, until the supply is exhausted.

Address all correspondence regarding subscriptions and purchase of numbers and separates to the Superintendent of Documents, Government Printing Office, Washington, D. C.

ERRATA AND AUTHORS' EMENDATIONS

Page 99, Table 1, in heading "arid" should be "acid."

Page 139, lines 4 and 5, insert "do not" between the words "fibers" and "differ."

Page 142, third line from bottom, "4.12" should be "6.12;" second line from bottom, "10.12" should be "12.12;" "20.12" should be "22.12," "40.12" should be "42.12," and "160.12" should be "162.12."

Page 184, Figure 2, fourth line in legend, "1900" should be "90."

Page 188, Figure 3, fourth line in legend, "585" should be "385."

Page 189, fifth line from bottom, insert "the drop" between the words "in" and "one;" fourth line from bottom, delete "the drop."

Page 190, line 17, "the second" should be "other."

Page 200, line 6, "P=0.01" should be "P<0.01."

Page 201, line 17, "the same" should be "serial."

Page 255, fifteenth line from bottom, insert "sandy" between the words "in" and "soil;" thirteenth line from bottom, insert "the" between the words "between" and "soil," add "s" to "moistures," and insert "tested" between the words "moistures" and "longevity."

Page 288, lines 9, 24, 28, and 30, "she" should be "he."

Page 367, Table 1, it should be indicated that the species Microbracon gelechiae (Ashm.) was bred from L. molestza by the writer.

Page 448, nineteenth line from bottom, "n. vorax" should be "n. ferox."

Page 450, nineteenth line from bottom, "brachyurus De Man (4), 1884" should be "brachyurus de Man (4) 1880."

Page 480, footnote 5, page 482, should be on page 480. It refers to "tuber-line" in line 17.

Page 483, Table 2, column 1, δ should be omitted after "(A)δ;" column 2, "1.6" should be "81.6."

Page 496, Figure 4, first line in legend, "recovery" should be "production."

Page 497, Figure 5, first line in legend, "recovery" should be "production."

Page 513, sixth line from bottom, "inoculation" should be "isolation."

Page 567, Table 3, forty-seventh scientific name, "Viola conandens" should be "Viola canadensis.

Page 578, line 7, "inhabit" should be "inhabits."

Page 691, fourth line from bottom, insert comma after "that" and delete comma after "probably."

Page 774, sixth line from bottom, "the exceptions" should be "the exceptions."

Page 778, line 21, "r=0.10 to 0.50" should be "r=0.10 to 0.80."

Page 779, line 2, "r=304Δ−tsλK" should be "r=304Δ−tsλK."

Page 781, line 13, "r=ROC>rRΔ" should be "r=ROC>rRΔ."

Page 821, line 2, "organic" should be "inorganic."

Page 850, line 21, after the word "important" add the following, "since plants take the disease from infected soil and."

Page 874, Table 2, under "Name," "McCullock" should be "McCulloch."

Page 879, Figure 7, third line of legend, and third line from bottom of page, "McCullock" should be "McCulloch."

pollen tetrads, effect of environment
881-882, 883, 884
sterility, study in commercial and wild varieties
867-887
storage conditions, effect on chip color
482-460
Precipitation, relation to ring width in
longleaf pine
351-354
Preservatives, Use to Prevent Loss of
Nitrogen from Cow Excreta during the Winter
R. A. McClure and H. H. Mitchell
503-506
Prunus—
spontaneum, epidermis, histology
235-245
Pseudotsuga taxifolia.
See
536
n. sp
Phytophthora rhizogenes,
preservatives, effect of Ceanothus brush
601-611
Pseudomonas rhizogenes,
neurosis, symptoms, comparison
269-271
Phytomonas rhizogenes,
neurosis, symptoms, comparison
269-271
Pseudomonas rhizogenes,
neurosis, symptoms, comparison
269-271
Quince tree, collection of oriental peach-moth
Quinces, collection of oriental peach-moth
Quadrat, size suitable for study of grazing
Rodolia cardinalis,
arms, consumption rate
197-203
Rats, feeding on—
canned sauerkraut as source of vitamin A
53-54, 61-64
meats and meat by-products as source of vitamin G
206-220
Ration, for Growing Chicks, Values of
Potassium Iodide as Supplement.
T. S. Hamilton and
C. H. Kieck
157-158
Rations, swine, iodine supplements, effects
65-77, 79-86
Ratios, feeding on—
canned sauerkraut as source of vitamin A
53-54, 61-64
meats and meat by-products as source of vitamin G
206-220
Reforestation, rocky mountains.效果 of Ceanothus brush
601-611
